About Vitripiazza

Vitripiazza is a new and exclusive range of Italian vitrified porcelain paving. Vitripiazza offers nine different colours across three beautiful ranges, with a wide selection of accessories to create the perfect finishing touches.

Benefits of Vitripiazza flagstones:

The vitrification process that our porcelain undergoes makes it a robust, high quality, long lasting and strong paving option. Not only do the Vitripiazza flagstones offer a varied colour blend that reflects natural stone, but they also provide home owners with the ultimate choice in durability, longevity and style as they are:

- ✓ Highly durable
- ✓ Resistant to attack from moss, mould and pesticides
- ✓ Resistant to salt
- ✓ Non absorbent (<0.1%)
- ✓ Frost proof
- ✓ Easy to clean

How to buy

We have an extensive network of reputable builders merchants, landscape centres and garden centres across the UK, from which to purchase our products. Simply contact the Customer Service Team on 0330 333 8030 for details of your nearest stockist or visit our website: www.naturalpaving.co.uk/stockists or www.vitripiazza.co.uk

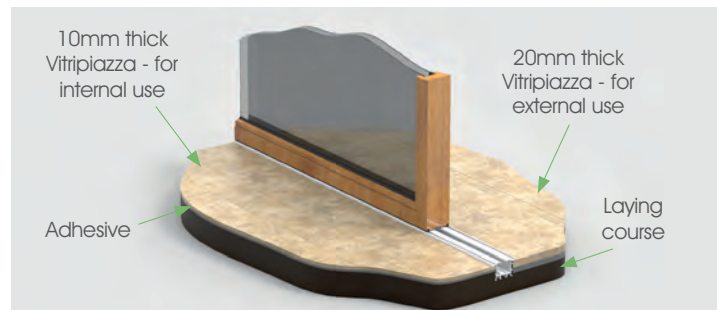

Vitripiazza is available in a range of product options including Project Packs, Single Sizes and Circle Kits. Please see table to the right for these product symbols and what they mean.

Premium Select

In addition to standard pack sizes we offer Premium Select pack size options, allowing smaller quantities to be purchased. Please note that Premium Select products will incur additional handling costs, to standard pack sizes.

Bringing the outside in

The Vitripiazza range is available in 20mm thick flagstones, designed for external use. In order to bring the outdoors in and create a flush finish from your garden into your home, we can also offer Vitripiazza 10mm thick floor tiles in single sizes for internal use.

Please note: The same products that are available in both 10mm and 20mm thicknesses may vary in surface finish. The 10mm internal use flagstones are slightly smoother than their 20mm thick equivalent flagstones, which are a little more textured as they are designed for external use.

Project Packs 	Contain a mixture of various sized flagstones, commonly used to create random patterns. (See page 14 for project pack laying pattern.)
Single Sizes 	These packs contain pieces of stone that are all one size, which are fantastic for creating a contemporary look.
Circle Kits 	Pieces of flagstones that have been cut and shaped to make circular patterns, ideal for creating focal points.

Please note: All product sizes, weights and coverages stated throughout this brochure are nominal.

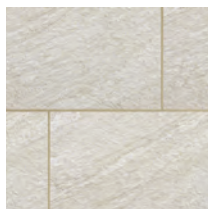

Di Pietra

MADE IN ITALY

With six colours to choose from, Di Pietra presents a contemporary range inspired by nature to give a slightly textured, random, natural stone finish.

Circles

The Vitriplazza Circles are created from flagstones that are 20mm thick and contain a centre piece, 2 rings and a squaring off kit. Each circle kit pack:

- ✓ Covers 5.02m²
- ✓ Contains 35 pieces
- ✓ Weighs 250kg

Circles are available in the following colours:

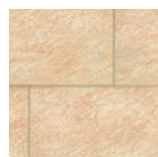

Tempesta

Nuvola

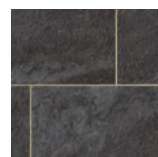

Terra

Oro

Cenere

Nero

If you would like further information about accessories and/or have any bespoke special order requirements, please contact our Technical Support Office on **0330 333 8030**.

Please allow a minimum of 4-6 weeks for special orders to be delivered into your stockist.

Installation Products

Pavetuf Priming Slurry

Pavetuf Priming Slurry is a polymer and cementitious slurry, specifically formulated to provide an exceptional bond between a new mortar base and all types of stone and porcelain paving.

Pavetuf Squeegee

The Pavetuf Squeegee is the ideal tool to apply the Pavetuf Jointing Mortar and Pavetuf Jointing Compound.

Pavetuf Porcelain Blade

The Pavetuf Porcelain Blade is a specialist blade, designed to cut porcelain.

Blade specification:

- 300mm (diameter) x 2.8mm
- 20mm diameter bore
- OSA approved
- EN 13236

To joint any of the Vitripiazza range and create the perfect finish, we recommend a Pavetuf jointing product. Choose from the Jointing Mortar or Jointing Compound depending on the desired colour and finish.

Pavetuf Jointing Mortar

The Jointing Mortar is a professional, rapid setting mortar which provides a contemporary and effective finish to paved areas.

- ✓ Can fill joints from 3mm-50mm and joint depths of up to 200mm
- ✓ Walk on within 1 hour
- ✓ Drive on within 4 hours
- ✓ Mixes quickly on site
- ✓ Very strong -49.6N/mm

Pavetuf Jointing Compound

An easy to apply all weather Jointing Compound, available in a range of three colours.

- ✓ Use in wet and dry conditions and in temperatures as low as -5 degrees
- ✓ Use with paving joints as narrow as 3mm and as shallow as 25mm
- ✓ Jointed areas can be walked upon after just 18 – 24 hours
- ✓ No waste, can be re-used
- ✓ Easy to apply, durable and eco – friendly

Jointing products compared

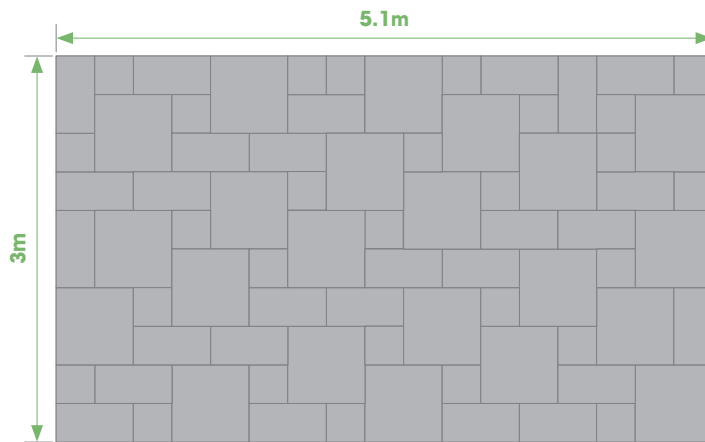

To help you select the most appropriate jointing product, please refer to our comparison table below:

Product	Finish	Colours	Application
Jointing Compound	Granular, traditional	Choice of 3; black, grey, buff	Simple and relatively quick, 1 person job. Suitable for DIY and trade professionals.
Jointing Mortar	Smooth, concrete effect	Choice of 2; gun metal grey, silver grey	2 person job, suitable for landscaping professionals. Will require a slurry wash off area.

Laying Vitripiazza

Project Pack laying pattern

Each project pack covers approximately 15.3m²

The image on page 15 shows an installed Project Pack in Oro.

Important Product Information:

For full product guidance, health and safety information and terms and conditions related to the sale of Vitripiazza products, please refer to www.naturalpaving.co.uk (go to the download section) or www.vitripiazza.co.uk

All images included in this brochure are the copyright of Natural Paving Products (UK) Limited. Unauthorised reproduction of any image is forbidden unless prior permission has been granted by Natural Paving Products. Information is considered accurate at the time of going to print, and Natural Paving Products cannot be held responsible for any errors or omissions. Photographs have been used as a guide to product identification only and may not be accurate in detail or colour and there may be some colour variations between photographs, compared to the actual product.
